## Goldeneye

A metallic patina is a simple and marvelous way to add a luxurious sheen to furniture and lighting. This market, Currey & Company is introducing a variety of new products with gold leaf finishes. Metal leafing is a technique that our craftsmen have mastered over the past two decades.

*Orli Chandelier*

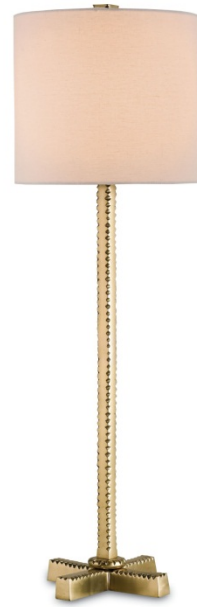

*Firelight Table Lamp*

The bewitching Orli Chandelier is hand finished with Contemporary Gold Leaf. The circular ring design is simple yet glamorous. Any interior will be elevated by the glowing warmth of this chandelier. The understated Firelight Table Lamp is a combination of stark simplicity and sumptuous details. A light beige linen shade tops the lamp body with a real gold leaf finish and a rich, black penshell base. This jewel will embellish the interior of any room!

*Delano Etagère*

*Chic Table Lamp*

The Delano Collection pays homage to decorator Billy Baldwin with étagères and occasional tables. With a gold leaf frame and glass shelves, the Delano étagère is an elegant place to display precious collections and books. Inspired by Mr. Baldwin's Porter étagère, the Delano is classic and will always be *au courant*. Practical with subtle details, the Delano étagère has all the style needed to make it timeless. Like the original Porter étagère, Currey's Chic Table Lamp is made of brass with a gold brilliance. The lamp's style and grace blends beautifully with the gold Delano Collection.
