## **BIG NIGHT ~ Robert B. Currey**

### **ICON Honors Presented**

Last night at the Atlanta Marriot Marquis, Robert B. Currey, was presented with the ICON Honor for Individual Career Achievement. The award was presented by Jeff Portman, President and COO of AmericasMart. ICON HONORS celebrate the legacy of creative expression, champions the genius of independent business and applauds the triumph of superior achievement in the home furnishings and gift industry.

Founder of Storehouse and Currey & Company, Robert Currey is a long-time innovator in the home furnishings industry and presently spends his time as a gentleman farmer (organic) in Sparta, Georgia with his equally talented wife, Suzanne Currey.

Over the years, Mr. Currey's reputation has grown from being a merchant to a designer and manufacturer of distinctive furnishings for the home. In 1969 he started his own retail home furnishings company, Storehouse. When he left the company in 1982, it had grown to 28 stores. The company was the realization of his dreams, vision and efforts. Robert spent the 1980's consulting within the furniture industry and running the US sales organization of an Italian garden furniture manufacturer. A product development job and a retail venture led to his current business, Currey & Company.
